Dear Sir:

In response to the Restriction Requirement of November 18, 1999, please amend the above-identified patent application as follows:

RECEIVED  
JAN 10 2000  
TECH CENTER 2700

IN THE CLAIMS:

Please amend claims 41, 42, 44 and 45 as follows:

41. (Amended) A method of binding a carbohydrate derivative to a gold surface to produce the biosensor according to claim 40, comprising:

coating the surface with a thiol compound containing an organic group for chemical binding of [a] the carbohydrate derivative, and  
contacting said coated surface with the carbohydrate derivative to be bound.

42. (Amended) The biosensor according to claim 40, wherein the [A] gold surface [having a carbohydrate derivative] is covalently bound to the [gold surface] carbohydrate derivative.
